Short, simple game with lots of thought provoking dialogue. Frustrating and rewarding at times, but hey, thats life. I also really enjoyed the music, it added to the personality of the game.. <https://youtu.be/-3pAynPynxU> Great relaxing Puzzle/ Indie game. You should try this one.. This game is very classy. I have been enjoying every level (currently, stuck at level 68 out of I don't

know how many). Highly recommend for casual gamers like myself.
